Command Ops is a turn-based strategy game in the same vein as another Panzer General title, Napoleon: Total War. As the player commander of a German or Allied army, your goal is to capture a majority of the available territory in the game board before your opponent. The closer to victory you are at the game's end, the higher your score. In Command Ops, every unit on the game board has a specific movement range which allows you to move your units across the map. Most units start with a static base, which can be altered by special actions, and a small number are special forces units, such as Mountain Gunners or Engineer units. Special actions can also allow you to attack, activate or order your units to attack in any direction. Unlike most strategy games, units in Command Ops attack each other in rounds, and combat is resolved after each battle. The Allies and Germans start at different points in the game, with the Germans having more powerful units in the early stages of the game. The game is a turn-based strategy with a map of France, Belgium, Luxembourg and Germany with both German and Allied forces. Historically, the order of the scenarios follows the progression of events that led up to the Battle of the Bulge. After each battle, the German player is given a number of victory conditions which can be met before the end of the scenario. If a player surpasses the number of victory conditions by the end of a scenario, they are awarded one "Coach's Ticket" which can be used to unlock a second scenario. Game Contents: (1) Campaign Director Map (50 Kb) – The most detailed map of the entire campaign. Allows you to replay the scenario as it happens, and to decide if you want to "sit" or "attack" Bastogne (1) Scenario Editor Map (60 Kb) – The map editor allows you to modify and customize maps. (1) Scenario Manual (150 Kb) – Describes all of the custom settings for the campaign and tutorial. (1) Training Manual (50 Kb) – Describes custom settings and special custom rules for the tutorial. (2) Campaign manual (180 Kb) – A comprehensive glossary of all of the units, special units, special abilities, terrain, weapons and more. (2) Training manual (50 Kb) – A comprehensive glossary of all of the units, special units, special abilities, terrain, weapons and more. (1

## What's new:

Sold Out If you are looking for a creative 4-channel mixer which does not compromise on sound quality and features direct-theatre-territory monitoring and an affordable price tag, then the Tiger Striker MP018 may just be the mix for you. If you are a nightclub DJ, or artist, or are looking to match the splendid sound of a full house of revellers with a compact mixer which is as easy to DJ as it is to mix, then the Tiger Striker MP018 is the perfect model for you. With a maximum of sixteen million club playback levels, sixteen million fully digital mixers which each have their own FX and LF sections and fantastic matching transport technology including the state-of-the-art S.R.T.™ technology, the Tiger Striker MP018 may just be the only mixer you will ever need. The new Z3D Ver. MP018 features two Live Performance Audio MICs (at the cost of five additional channels), two swappable phantom power outputs (at the cost of a bank of four 12AU7's) and easily interchangeable footswitches (at the cost of five 5PN7′s) with battery backups; that all adds up to the best-sounding, most intuitive performance mixer available today. On top of that, the MP018 also features the same lighting effects, swellers, volume faders, master balance, and even a low-frequency shelving subcompact mixer chip as all three of its better-known cousins, plus two additional 12V phantom power inputs, and the convenience of two high-performance BNC inputs (at the cost of four XLR inputs). Best of all, it delivers all of this without the footprint of our maximum-output HDY-2D. With so many functions that you could easily plug this straight into the centre of the DJ booth, the MP018 is a musical powerhouse that offers a whole new level of mixing joy. See the rest of the MP018 and view description in the description box below. We only have a limited number of mixers left. There is no need to wait! A refresh of the Tiger Striker® family With the launch of our second generation Striker®, our staff were humbled by the overwhelmingly positive feedback from the world's leading sound engineers and DJs. So, to once again give them a little something extra, and to address a few issues, the MP
