Synthesis and biological activities of chrysazinone-containing lipopeptides. Chrysazinones are members of the aziridino-spiroketals family of natural products which exhibit powerful antiproliferative activity. Herein, we report the synthesis and biological evaluation of a series of chrysazinone-containing lipopeptides as potential antitumor agents. The chrysazinones were incorporated into the N-terminal part of a lipopeptide scaffold which included a non-natural lipid moiety, with a short linker between the molecule and the lipid. The biologically active compounds showed a promising antiproliferative activity against a panel of cancer cell lines and generated apoptotic cell death. One of the new molecules, 15a, showed low hemolysis and cytotoxicity. The binding of the chrysazinone 15a to purified α -tubulin was determined by microtubule depolymerization assays, showing that it is an inhibitor of α -tubulin polymerization.

Why SeaWorld San Diego Should be Treated Like the Whole World
September 9, 2017 San Diego has been an amazing place for families to enjoy for a long time. I've been going to SeaWorld San Diego since I was a small kid, and it was a huge part of my life. I fell in love with an orca named Keiko and became a special friend to the Keiko family for years. Each year we look forward to visiting him and his family, and every year I come away with a whole new set of memories. I've always known that SeaWorld holds many memories for a lot of people, but most of those who make the annual trek to SeaWorld come for one reason. They love whales. Many of these people come from out of town, so they need a way to make sure that they are seeing and experiencing the best of what SeaWorld has to offer. If you have never been to SeaWorld San Diego, I suggest you visit. It is an amazing part of San Diego that is connected to the ocean. It is more like a wonderful vacation spot for families than it is a zoo. So, I hope to convince you to come visit the "whale" of San Diego. But, just because SeaWorld has been in the news lately
